01. Introduction

What is Lwazi

LWAZI

Crypto community platform

Where does the name come from?

The name Lwazi is of south african origin and refers to "wisdom" or "knowledge".

What is Lwazi? What's the plan? How do we achieve the goals?

In this whitepaper we'll try to answer those questions to the best of our abilities.

What is Lwazi?

Lwazi is an online community social network platform that aims to integrate real-time and accurate information of listed coins and tokens while adding a layer of social community platform on top of it.

What's the long term plan?

The plan is simple: Become the biggest online community platform for all crypto.

02. Tokenomics

Rewarding holders long term

10 %

The buy tax

7 %

BNB rewards

2 %

marketing

1 %

Product development

15 %

The sell tax

12 %

BNB rewards

2 %

marketing

1 %

Product development

Doesn't reward contract adds a selling pressure?

Reward contracts adds a small selling pressure to the chart as it needs to swap tokens to BNB in order for it to reflect BNB to holders. But it also supports a healthy chart that doesn't simply pump. It allows investors to hold their tokens without selling while still receiving funds.

02. Tokenomics

BNB rewards

7-12%

BNB rewards

 Lwazi holdings

629.38m

 Total BNB received

1.12380

 Pending rewards

0.05140 

Use the \$-sign to manual
claim rewards

How does rewards work?

Rewards are automatically transferred every 24 hour by the Lwazi_DividendTracker contract.

On sell transactions the contract will sell the tokens held by the \$LWAZI contract and loop through eligible holders to transfer dividends.

A manual claim functions is also available directly from the platform once a user has connected their wallet.

03. The community

Growth of users

The user registration option was added to the platform on September 12th 2021. Since the user registration was added a total of 12,533 users have registered on the platform with a daily average growth of about 500 new users.

04.1. The platform

The boards

The screenshot shows the LWAZI platform interface. At the top, there's a navigation bar with 'Overview', 'Coins', 'Portfolio', 'News', 'Socials', 'Win', 'About', and a user profile 'Lwazi'. Below this, the main content area is divided into three sections: a price chart for '\$FEG' showing a 24-hour period with a price range from -10.00% to 2.50%; a community board with a comment from '@yourcryptodj' asking 'What would you rather BUY and HOLD ??' and a list of suggestions like 'More SSHIB', 'More SADA', etc.; and a sidebar with social media links for Website, Telegram, Twitter, Dextools.io, Dex.guru, Etherscan, and Ethplorer.

All-in-one boards

Every coin and token on the platform has its own community board where holders can communicate and easily access all available information.

- 24-hour chart data
- Website
- All social channels
- Explorer links
- Charts (*Dextool etc.*)

The screenshot shows a community board with several posts. The first post is from 'The King's Crown' (@King) saying 'I see \$LWAZI going to moon SOON! Holding \$SHIBA, \$KISHU, \$AKITA'. The second post is from 'The King's Crown' (@King) saying 'Comment to @yourcryptodj Holding \$SHIB & \$LWAZI forever. Holding \$KISHU for comeback to \$2'. The third post is from 'Skepticon' (@Skepticon) saying 'Comment to @yourcryptodj \$LWAZI till Mars!'. The fourth post is from '@Flameboy99' saying 'Comment to @yourcryptodj I would buy \$LWAZI'. The fifth post is from 'The King's Crown' (@King) saying '\$JED Going to the fucking moon!'. The sixth post is from '@TECHNO' saying '\$JED will change alot of perspective on crypto'. The seventh post is from '@Luther' saying '\$JED'.

04.2. The platform

The coins and tokens

The coins and tokens page is a more detailed version of the community boards.

Integrating a full-featured trading view chart system for customised chart design and pattern analysis.

Available on the sub-page is also most recently scraped news of the specific coin as well as the most recent posts.

04.3. The platform

The portfolio tracker

Integrating both ERC and BEP chains to generate an overview of any users portfolio value, amount and % of total supply.

Value and holdings are always updated in real-time with the rest of the platform.

04.4. The platform

The giveaways

Weekly giveaway

3x \$100 weekly in BNB

Every upvote adds a ticket into the **weekly** giveaway.

Winners notified on Mondays. | Max. tickets/day: 40.

Monthly giveaway

3x \$250 monthly in BNB

Every upvote adds a ticket into the **monthly** giveaway.

Winners notified on the 1st of the month. | Max. tickets/day: 40.

To encourage users to be active on the platform we've integrated an automatic giveaway system which selects 3 random winners every week and month.

To win the giveaway users have to upvote coins to earn tickets on the platform, which brings exposure to the coins and tokens listed on our platform.

04.5. The platform

The upgrades

 NO ADVERTISEMENTS 1m \$LWAZI ~ 2.15 USD Hold 1m token of \$LWAZI to experience a more clean platform without any advertisements!	 DOUBLE VOTING 10m \$LWAZI ~ 21.51 USD Hold 10m tokens of \$LWAZI to make every upvote you make on the platform count for 2 votes and 2 tickets.	 VIP HOLDER 100m \$LWAZI ~ 215.10 USD Hold 100m tokens of \$LWAZI to receive a VIP awards badge on your profile to showcase real dedication!
---	--	--

As the platform progress the use of \$LWAZI token will be more and more an integrateable part of the platform. As of now holding \$LWAZI will allow for: **No ads** and **double voting**.

As the platform develops all kinds of new features will be available to holders of \$LWAZI. Every function launching on the platform will have a free version while a premium version will be available to holders of certain amounts of \$LWAZI token.
